

SIXTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, MARCH 16, 1905.

No. 11

HOPKINS COUNTY MINES

Stay at the Front, Where They Were Put by Vigorous Operators Years Ago.

MAGNIFICENT SHOWING MADE FOR YEAR OF 1904.

Many Thousands of Dollars Added to County's Wealth by These Operators.

The official report of the coal production of Hopkins County for the year 1904 is given below. These figures were obtained by THE BEE from the office of the State Inspector of Mines Mr. C. J. Norwood, and today are given first publication in these columns. The figures for the State are not yet complete, though a preliminary estimate was published in last week's Bee, and this estimate is also included in the figures published today.

Hopkins county continues pre-eminently the leader of all Kentucky counties in the production of these splendid black diamonds that have steadily added to the wealth of the county and State for more than thirty years.

There is a small decrease in output for 1904 as compared with the almost phenomenal production of 1903, but the year 1904 is 1,662,290 tons greater in coal production than was the year 1903 which surpassed all previous records by a big margin.

These figures give added emphasis to the importance to the county and State of the spendid development now attained by coal operations of Hopkins county.

The official figures follow:

Output of Hopkins County Mines for Calendar Year 1904.

	TONS.
Buffalo Creek C. & M. Co.—	81,278
Carbondale C. & C. Co.—	41,912
Crabtree C. M. Co.—	116,237
Oak Hill C. Co.—	76,388
Reinecke C. M. Co.—	284,921
Victor C. Co.—	1,000
Klungton & Wolf—	38,907
St. Bernard M. Co.—	
Arnold mine—	117,783
Barnsley—	16,640
Diamond—	16,640
Hecla—	113,519
No. 11—	135,080
No. 9—	164,464
St. Charles—	130,135
Total—	1,712,098

This is a decrease of 23,418 tons from the output for 1903. The output for the entire State fell off about 102,976 tons. Complete returns for the Western District have not yet been received,—one company (two mines) being delinquent for December. Including an estimate for that company, the total output of the State for 1904 was about 7,096,275 tons. Losses and gains were as follows:

Western District lost, about 135,306
Northeastern District lost, 237,953

Loss 375,253
Southeastern District gained 270,183

Net loss 102,976

Computations as to selling values have not been completed, a number of companies having delayed replies to confidential circular on that point.

The Western district produced nearly twice as much as the Southeastern district and nearly seven and a half times as much as the Southeastern district in which the above gain is recorded. Hopkins county alone produced more than 40 per cent of the entire output of the Western district.

The output of the county for the years 1901 to 1904 is as follows:

TONS.	
1901 Hopkins County Output—	1,348,701
1902 " " "	1,353,609
1903 " " "	1,735,516
1904 " " "	1,712,098

The Reinecke Coal Mining Co. continues to be the largest pro-

ducing single mine in the State. The St. Bernard Mining Company's No. 9 Earlington mine holds second place in this list and the St. Bernard Mining Co.'s "Diamond" mine at Mortons Gap is third. The St. Charles mine of the latter company has moved up to fourth place in this honor roll of good producers.

COURT OF APPEALS AGAINST HARGISES.

Hold That Their Arrests in Breathitt Were Fraudulent.

Frankfort, Ky., March 10.—The Court of Appeals, in an exhaustive opinion by Judge O'Rear, whole court sitting, refused the application for a writ of prohibition against Circuit Judge Watts Parker on the motion of Judge James Hargis, Senator Alex Hargis and Sheriff Ed. Callahan, indicted for the murder of Town Marshal Cockrell, and Fayette county will try the cases.

There was not a dissenting opinion. The decision covers seventeen legal typewritten pages, and sets out the following points raised by the Commonwealth:

First—that writ should not be issued until petitioners have first applied to the Circuit Court.

Second—that Fayette and Breathitt have concurrent jurisdiction, and county first beginning proceedings has exclusive jurisdiction.

Third—that proceedings were first begun in Fayette county.

Fourth—that alleged proceedings begun in Breathitt before January 4 are a myth, or were the result of collusion between the officers, and were originated for the fraudulent purpose of preventing any prosecutions, and were never intended to have been made public except as a defense to the jurisdiction of Fayette county.

COURT HOUSE FIRE.

Incendiary Attempt on Justice Headquarters at Princeton.

Princeton, Ky., March 13.—An unsuccessful attempt to burn the courthouse here was made this morning. The fire was discovered in the second story at 6:45 a.m. but was extinguished with a trifling loss. A large hole was burnt in the floor and one of the doors of the large courtroom.

Coal oil had been poured all over the floor and the fire was undoubtedly of incendiary origin.

Annual Examination By State Pharmacy Board.

The annual examination conducted by the Kentucky Board of Pharmacy will take place Tuesday, April 11, in the Council chamber in the City Hall at Louisville. All applications should be sent to Mr. J. W. Gayle, of Frankfort, by April 1.

Box Party Was a Success.

The box party given at the Armory Friday night for the purpose of raising funds to build an additional room to the Methodist parsonage was quite a success. Something near \$25.00 was received. The young people were out in force and seemed to enjoy themselves very much.

A Correction.

In last week's issue THE BEE erroneously stated the name of Mr. and Mrs. P. P. Price's baby to be Mary Elizabeth, it should have been May Elizabeth.

ST. PATRICK DAY

Will Be Celebrated at the Catholic Church With Special Services.

Friday, March 17th, is the Festival of St. Patrick, the apostle of the Irish race. Throughout the Catholic church the ecclesiastical calendar requires that the day be kept sacred in honor of this saint. In congregations composed largely of those of Irish birth or extraction, the feast is generally celebrated with ceremonies of a solemn character.

At Earlinton in the Immaculate Conception solemn high mass will be sung at 9 a.m. by the Rev. Bernard Boland, of Somersett, Ky., assisted by the visiting clergy as Deacon and Sub Deacon.

In the evening at 7:30 the Lenten devotions will take place and a sermon appropriate to the occasion will be delivered by the Rev. John McKeary, pastor of St. Peter's church, Stanley, Ky.

The exercises will conclude with solemn benediction of the most Blessed Sacrament and the singing of the hymn to St. Patrick.

The acting pastor of the church, Father Welsh, extends a cordial invitation to the members of the other churches and to the citizens generally of Earlinton, to attend all the services.

HARGISES ARE AT LAST JAILED.

C. J. Bronston Will Assist Col. Allen in Prosecuting the Cases.

Lexington, Ky., March 13.—The Hargises are at last behind prison bars and occupy the same cell in the Fayette county jail in which Caleb Powers was incarcerated. Accompanied by Special Bailiff J. J. Reagan, who went to Jackson Saturday morning after them, James and Alex Hargis came here this morning on the 10 o'clock train. Elbert Hargis did not arrive till this afternoon, while Sheriff Ed. Callahan is still in Breathitt county.

NEW RESTAURANT

To Open in Earlinton in the Near Future.—Something That Has Long Been Needed.

Frank B. Arnold, one of Earlinton's popular citizens, will in a short time begin the erection of a building on the railroad company's grounds at the south end of the passenger depot. This building will be used for the purpose of running a first class up-to-date restaurant and is something that has long been needed in this city. The location of the building and the length of time consumed here by passenger trains will enable passengers to secure a lunch while the train is standing here.

Marion Allen's Examining Trial.

The examining trial of Marion Allen, who is charged with the killing of Walter Hanks at White Plains Saturday a week ago, will be held in Madisonville this morning at 10 o'clock. Allen has been in jail at that place since the death of Hanks.

If your trade is falling off, don't go way back and sit down and grieve about it. Advertise in THE EARLINGTON BEE, and your cares will vanish like mists before the morning sun. Don't take our word for it. Try it and be convinced. THE BEE reaches the people who have money to spend.

EARLY KENTUCKY FORESTRY.

Interesting Facts About Timber Growing Near Paducah.

An interesting example of the unprofitability of conservative forest management in this country is furnished by Dr. S. B. Caldwell, of Princeton, Ky., who has dealt in timberlands in the southwestern part of the State for fifty-eight years. "In 1847," says Dr. Caldwell, "I sold timber from a track of land at \$1 an acre, the purchaser having the privilege of removing what he wanted and leaving what he did not want. He took the choice trees, but left considerable amount standing. In 1870 I sold the timber from the same tract and got for it \$2 a tree. The purchaser removed an average of 3 trees per acre. In 1884 I sold the timber from the same tract for the third time, and got for it as much as I had received at the second sale."

Dr. Caldwell's experience in the woods taught him long ago the wisdom of conservative forest management. Thirty years ago, when he came into possession of a tract of about 700 acres near Paducah, he sold a quantity of timber for wagon stock. At that time forestry in this country was virtually unknown. Dr. Caldwell, however, was sufficiently forelighed to allow no trees to be cut except those he selected. He went about in the woods and picked out trees whose tops and general appearance showed they had passed their period of greatest vigor, and trees which interfered with promising young growth. His forest has been culled a number of times in the past thirty years, but so wisely has the cutting been done that today the land will average from 10,000 to 15,000 board feet per acre. This was an experiment in forestry which has amply justified itself, and shows how a shrewd, farsighted man may, even without technical advice, secure good returns from his woodland without impairing its productive value and while putting himself in position to profit by the steady rise which is taking place in timber values.

NEW MASONIC LODGE.

Hanson to Have a Lodge.—First Officers Named.

Grand Master Rhea has granted a dispensation for the organization of a new lodge at Hanson, in Hopkins county, to be called Hanson Lodge. U. D. John T. Bailey is to be first Master; James H. Clinton, S. W., and Andrew J. Rockard, J. W. Past Grand Master H. H. Holman was appointed proxy by the Grand Master to set the lodge to work.

Saloonekeeper Who Struck Carrie Nation is Fined.

Elizabethtown, Ky., March 10.—J. R. Neighbors, the saloonekeeper who hit Carrie Nation over the head with a chair, was tried in the Circuit Court and fined only \$15.

STRIKE LEADERS ADMIT DEFEAT.

New York Traction Strike Meets an Early Death.

New York, March 11.—William L. Jencks, president of local union No. 105 of the Brotherhood of locomotive engineers, said to a gathering of about 800 men in front of Marion hall this afternoon, following a meeting of the executive committee: "Men, the strike is over. We are beaten. It is a case of everybody for himself. Get back if you can. There is no longer an organization. The press and the public have been against us. The press is responsible for the hostile sentiment. I understand the age limit has not been enforced, so all try to get back to your former jobs. I shall do the best I can, but under no circumstances would I apply for a job with the Interborough company."

COMMITTS SUICIDE.

Albert Kingman of Newport, Ky., Shoots Himself.

Albert Kingman, of Newport, Ky., shot himself through the temple March 14, and died several hours later.

Mr. Kingman fought in the English army in South Africa during the Boer war and while on the battlefield contracted an illness from which he had not recovered. This is thought to have caused despondency which ended in his death.

He was a nephew of Dr. Nebbit, of St. Charles, and Miss Ella Johnson of Madisonville. His remains were brought to St. Charles for burial.

LOUISVILLE TRAINED NURSE.

Declines High Honor of Position in Unhealthy Climate of Panama.

Louisville, Ky., March 11.—Miss Nora E. Johnson, who was selected as head nurse of the Panama canal hospital, has declined the position on account of the unhealthy climate and opposition from members of her family to her acceptance of the place. The position is a high one and was won in competitive examination over a large number of applicants, but after considering it for some time Miss Johnson decided that Louisville is a much better place than Panama, and she will not go South.

FEDERAL JUDGE AND ATTORNEY

Oppose the Pardon of McKnight the Defeating Banker.

Washington, March 11.—The reports of Judge Walter Evans and District Attorney R. D. Hill, of Louisville, on the pardon application of J. M. McKnight, former President of the German National Bank, were received today at the Department of Justice. The reports are not favorable, and the effect is to give a check to the movement to secure clemency for McKnight.

Mrs. Alice Ruby's Death.

Mrs. Alice Ruby died Friday afternoon, March 10, at the home of her daughter, Mrs. Will C. Morton, in Madisonville after an illness of several months. Mrs. Ruby has resided in Madisonville the past fifteen years and was loved and admired by many warm friends for her fine traits of character. She leaves five children as follows: Mrs. W. C. Morton and sons Ed. Clint, Ashby and Sam.

She was laid to rest Sunday afternoon at the Odd Fellow's cemetery. The family have the deepest sympathy of their many friends here.

UNITED STATES FUELS

Coals Turned to Gas and Used in Explosive Gas Engines.

OTHER INTERESTING GOVERNMENT TESTS.

The fact that the coals and other mineral fuels used in the United States during 1904 cost the consumers approximately \$1,500,000 indicates the magnitude and importance of the problems which the United States Geological Survey had under investigation in connection with its coal testing plant at the Louisiana Purchase Exposition. It will interest many people to know that a preliminary report on the operations of that plant has recently been published.

Among the results already clearly indicated by these preliminary tests the following may be stated as worthy of special consideration: (1) The tests in the steam boiler plant of 65 car-load samples of coal from 17 States indicate that the steam producing capacity of American coals is high and that the quality of many of these coals may be improved by washing. (2) The producer gas tests show the most striking results, and they indicate a revolution in the economical use of coal for the production of power. The results clearly demonstrate the following points: (a) that most of the American bituminous coals and lignites can be used successfully in the manufacture of producer gas, and that this gas can be utilized in an explosive gas engine; (b) that this method of using fuel is much more economical than the present mode of generating steam. (3) Some of the lignites from partially developed but extensive deposits in North Dakota and Texas, when tested in the gas producer and gas engine, have shown unexpectedly high power producing qualities, such as promise large future developments in those and other States. (4) Some of the American coals, and the "slack" produced in mining these coals, can be briquetted on a commercial basis.

This reported is listed as Bulletin No. 361 among the Survey's publications. It is intended for general distribution and may be obtained on application to the Director of the United States Geological Survey, Washington, D. C.

Coal Tests Will Continue.

At World's Fair Grounds. Washington, March 11.—An appropriation of \$200,000 was made by Congress for continuing coal tests at St. Louis. These tests were begun at the World's Fair grounds during the Exposition, conducted by the United States geological survey. Mr. Walcott, director of the geological survey, stated this evening that the tests would be continued on the Exposition site at the plant established there until June, 1906. The twenty-odd men employed there, he said, would be continued until the date mentioned, at least.

Western Asylum Officials Clear.

Hopkinsville, Ky., March 10.—Following the action of the grand jury in refusing to reindict officials of the Western Kentucky Asylum for the Insane for malfeasance in office, an order has been placed on the records here striking the case from the dockets.

Canning Factory.

A cannery factory to be capitalized at \$15,000 is to be started at Hopkinsville. The stock has been subscribed by people of the town and county.

**Here is Quality
And a Quantity of it.**

\$4.50

Buys this golden oak finished CUPBOARD; is 3 feet wide and 6 feet 8 inches high; has fancy carved top and brass handles on drawer; furnished complete with rollers.

SHORT LOCALS

What happened to Jones?

Mrs. William Branhams, who was quite ill for a few days, is improving.

Mrs. Cavanaugh is seriously ill with pneumonia and is not expected to recover.

Maj. and Mrs. Walter Powers were in the city Monday night. Mrs. Powers spent the evening with relatives.

Col. Wood this week planted a number of trees along the sidewalks, which will add much to the comfort and appearance of our pretty little city.

Mrs. D. L. Steeves, of Madisonville, has returned from market with a full line of spring styles, and has employed Miss Griffith, of Indianapolis, who has had a number of years of experience.

What will happen to Jones at Temple Theatre Saturday night will be sufficient.

The Ladies' Aid Society of the M. E. Church, South, is increasing in numbers and interest. They now have 15 members who meet each Monday afternoon and sew. Their work is the best and cheapest.

Mr. Omer Wyatt entertained a few of his little friends on Moss ave., at the residence of Mrs. Fannie Day one night this week with a magic lantern show. All express themselves as being delighted with the performance.

Ninety-four new books have been placed in the circulating library the past week, which together with the large number already there, should furnish all who are literary with the best of reading.

Rev. King of the M. E. Church South, will preach at Earlinton the 3rd, 4th and 1st Sundays. All members are especially requested to be present at 3 o'clock on the next Sunday afternoon as an important meeting will be held. The usual bible class will be postponed until the following Sunday.

How's This!

We offer One Hundred Dollars Reward for any case of Catarrh that can be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known Dr. Hall's Catarrh Cure for many years and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure taken internally, directly affects the blood and mucous surfaces of the system. Testimonials sent free. Price, 10c per bottle.

Sold at all Druggists, 75c.

Take Hall's Family Pills for constipation.

Mr. S. W. Bedford, grand master workman of the A. O. U. W. of Owensboro, Ky., will address the citizens of Earlinton Friday night, March 24th, at the M. E. Church, South in the interests of the order. All are respectfully invited to attend.

Wanted—A good milch cow with young calf. Apply at this office.

• What Happened to Jones? •

is the title of an amusing comedy that will be presented at Temple Theatre at this place Saturday night. The entire proceeds will be given to the Southern Methodist church to help liquidate the parsonage debt. The price is very moderate, being 25 cents for children and 35 for adults. Let everyone in Earlinton that can come to Temple Theatre Saturday night and enjoy two hours of wholesome fun.

Mrs. Ellen Osburn, of Richland, has sold \$191 of produce, consisting mostly of butter and eggs, to the Company store in the past 11 months, besides a large amount sold in Madisonville and elsewhere. This proves what an energetic, enterprising woman can do.

READ THIS

Bowing Green, Ky., June 12, 1901.—Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: We have been selling our "Family Pills" in the Bowing Green, for two years and can recommend it to any one suffering with kidney trouble as being the best remedy we have ever tried.

Yours truly,
W. C. Morris & Co.

A TEXAS WONDER

One small bottle of the Texas Wonder Pill's Green Discovery, will cure all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all diseases of the kidneys and bladder in men and women; regulates bladder trouble in children. If not sold by your druggist it will be sent to you by mail. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, manufacturer, 611 Market Street, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Births.

Mr. and Mrs. Frank Wyatt on the 13th a boy.

Mr. and Mrs. Clas. Carroll on the 14th a boy.

Mr. and Mrs. Jim Scott on the 13th a 11 pound boy.

PILLS,
HAIL VINE.

Keep the bowls regular with Ayer's Pills, just one pill each night.

Sewing Wanted.

The Ladies Aid Society of the M. E. Church, South, solicits your plain sewing. Cutting and fitting will be done each Monday afternoon from two until five. For further particulars and prices call on Mrs. J. E. King, Mrs. Katie Withers, or any member of the society.

The Earlinton Embroidery Club was delightfully entertained at a four-course violet luncheon at Mrs. M. B. Long's last Tuesday. The parlor was beautifully decorated with carnations and ferns, while the dining room and table were in violets. A bunch of violets tied with a sash placed on the table and the favors were carnations. The hostess was the recipient of a beautiful cut glass berry bowl given her by the members of the club.

The friends of THE BEE are requested to send in either through the post office or the newspaper office of interest occurring in their neighborhood. We want all the news and it is impossible to get it without the assistance of our friends. Don't neglect this. What to you may seem trivial will be read with interest by your neighbors.

Christian Church.

Easter Sunday, April 23rd, has been set as the day for beginning a special evangelistic campaign. The pastor, Howard J. Brazelton, will do the preaching.

The church has made an offering to Foreign Missions amounting to \$88.

Work in the improvements on the building is progressing rapidly. The pews have arrived and will be placed soon.

The Ladies Aid is doing splendid work and has a membership of thirty.

Work on the building will begin the Sunday services. They will be held as usual.

Morning subject—"Laying in Store." Evening—"The Temptation of Christ."

Earlington Band Organized.

The Earlington band was organized Monday night with the following officers and members: John Long, President; David Cowell, Secretary-Treasurer; Chas. Webb, Business Manager; C. C. Pfatenhauer, Bandmaster; Members: Elsworth Evans, Thos. Long, Albert Lamont, Claude Long, Chas. Trumpp, C. Webb, Leonard Goodloe, Lew Simmons, Moze Draper, Charlie Deyerle, Howard Draper and C. W. Hart. There is plenty of talent along this line in Earlington and there is no reason why we should not have a first class band at this place.

Died in Arkansas.

Colonel Newton, aged 18 years, the youngest brother of Ernest Newton, of this place, died at the family home in Clarksville, Ark., on March 5th after an illness of nearly six weeks. The news was received here this week. His mother, one sister and four brothers survive him. The home of the family was formerly in Ohio county, Ky., where Ernest Newton was born but the parents moved to Arkansas when he was young, where the home has since been.

Mrs. Mary Stone and children

spent Sunday and Sunday night with her sister, Mrs. Jennie Rich.

What happened to Jones?

Quite an improvement has been made in the appearance of the posse office at this place. It has been newly papered and re-varnished.

Mrs. J. R. Dean returned from Princeton Sunday, where she has been visiting her daughter, Mrs. Lee, who was quite ill last week, but is considerably improved.

W. R. Wood, Sup't. of the National Coal & Iron company, of Straight Creek, was here this week and made a contract with M. Hanna, of the Earlinton Iron Works, for quite a lot of machinery, including one of their celebrated shaker screens.

Wanted—To purchase a home in Earlinton. Apply at this office.

Mrs. Belle Wilson has been very ill, but is improving.

W. G. Carter's residence was destroyed by fire Monday afternoon at 3 o'clock.

The St. Bernard Mining company have placed an order for a new shaker screen for their St. Charles mine with the Earlinton Iron Works.

They are black Thibets, for dress wear; and fancy Cashmires, and work patterns, in blue, maroon and pink patterns, in various weaves. They are GUARANTEED ALL-WOOL, and are made in every size and weight.

What we ask you to do is to write to us and tell us what size and what blank—saying you saw THIS ad in the paper.

Ours is the largest and oldest house in the South. We OWN our building and have NO MORTGAGE or TAXES TO PAY for over FORTY YEARS.

We have a large stock of FURNISHINGS for men and boys; SHOES for everybody; and a large stock of men's and women's CLOTHING, and sell all goods SUBJECT TO APPROVAL.

Style book sent for all lines free on request. Let us front you.

LEVY'S

Third and Market,

LOUISVILLE.

As our agent to SHOW and SELL our goods; and an investment through him in our business would be better than a Government Bond.

They are made in every size and weight.

Buy your Mohairs now and get them made up for Easter use.

The GRAND LEADER.

MADISONVILLE, KY.

Public Speaking

S. W. Bedford,

OF OWENSBORO.

The Grand Master Workman of the State,

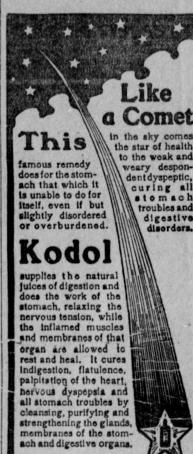

Will address the citizens of Earlinton

Friday, Mch. 24,

In the interest of the

A. O. U. W.

A cordial invitation is extended to all to attend. Speaking will be at Southern Methodist Church.

Kodol Dyspepsia Cure

Your Dealer Can Supply You.
Bottles only, \$1.00. Size holding 2½ times
the usual dose. Prepared by E. G. DeWitt & Co., Chicago.

Sold by St. Bernard Drug Store.

Arthur Caudill happened to an unlucky accident while sculling with Jesse Whithfield, falling and breaking three of his ribs. Dr. Mitchell attended him and he is getting along all right now.

The enterprising manager of the Earlinton Iron Works, M. Hanna, has recently installed six new machines in his plant, consisting of one large lathe with a six foot swing, one sharper, one grinder, one power axle and one small lathe. This is now one of the best equipped shops in this side of the State and they are prepared to do any and all kinds of work with promptness and dispatch.

Notice.

In future no mutilated or cut bread checks will be received by me. Bending or cutting bread checks render them worthless. M. B. LONG.

Married in Evansville.

Mr. James Long, of Madisonville, and Miss Kate Sullivan, of this city, were married in Evansville Tuesday. Mr. Long is a contractor and carpenter and has quite a number of friends where he is known. Miss Sullivan is a sister of Mr. J. J. Sullivan, of this city, and is an estimable young lady.

New Secretary for Ireland. London, March 14—Official announcement is made of the appointment of Walter Hume Long, president of the local government board, to succeed Mr. Wyndham as chief secretary for Ireland. Gerald Balkin, president of the board of trade, succeeded Mr. Long.

Washington, March 14—James D. H. Jarvis, of the revenue cutter service, and by special act of congress collector of customs for the district of Alaska, has tendered to the president his resignation as collector, to take effect at once.

SCRATCHED DAY AND NIGHT

Lady Suffered Tortures with Itching Scalp Humor—One Box of Cuticura Ointment and One Cake of Cuticura Soap Cured Her.

WILL NEVER BE WITHOUT CUTICURA

"My scalp was covered with little pimplies and I suffered tortures from the itching. I was scratching all day and night, and I could get no rest. I washed my head with hot water and Cuticura Soap and applied Cuticura Ointment and a dressing. One box of Cuticura Ointment and one cake of Cuticura Soap cured me. Now my head is smooth and soft, and I am growing splendidly. I have used Cuticura Soap ever since, and shall never be without it. (signed) Ada C. Smith, 309 Grand St., Jersey City, N. J."

CUTICURA GROWS HAIR

Crusted Scalps Cleaned and Purified by Cuticura Soap

Assisted by light dressings of Cuticura, the great skin care. This treatment at once stops falling hair, removes crusts, dries the scalp, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair follicles, loosens the scalp skin, supplies the scalp with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Complete external and internal treatment for every humor, from pimples to scrofula, from infancy to age, consisting of Cuticura Soap, Cuticura Oil and Cuticura Dressing, all of drumsticks for one dollar. A single set is often sufficient to cure the most distressing cases.

Cuticura Ointment, Soap and the various forms of Cuticura Soap are sold by all druggists, physicians, grocers, etc., and by Misses Minnie Davis and Nora Dillingham, of White Plains, and Will Campbell, of Nashville, were the guests of Mrs. John T. Davis Monday.

D. D. Davis visited his mother at Madisonville Sunday.

Mrs. Vida Kourse is the guest of her daughter, Mrs. Wm. L. Sisk.

A Rebecca lodge will be organized here March 29. Persons desiring to join the organization and members especially invited to be present.

Wm. Kinney has returned to Louisville after spending several days with friends here.

Roy Robinson and Leonard Smith spent Sunday at Earlinton.

Oliver Gates of Madisonville, was here Sunday, the guest of friends.

Mr. and Mrs. Robert Hart and E. L. Hart visited in Crofton this week.

Mrs. M. Calhoun visited her mother and attended "What Happened to Jones?" in Madisonville Tuesday.

The Social Club spent a most enjoyable evening with Miss Alice Davis at the Hotel Plaza. The evening was spent in pleasant conversation, music and games, and promptly at the lunch hour dainty refreshments, consisting of fruit and fudge, were served in the parlor. The visitors present were: Misses Lizzie Almon, Camille Young and Inez Lynch, Mr. and Mrs. Wm. Phillips, Harvey Young and Leon Gard Gatlin.

Hot Springs, Ark.

This great health and pleasure resort is best reached via the Iron Mountain Route. Quickest schedules and solid trains. Pullman sleepers, rail-car, etc., from St. Louis or Memphis. Hotel rates, etc., are the same to visit this great resort. Low road trip rates. liberal limits. Handbooks descriptive literature furnished free. For rates, etc., call nearest Ticket Agent, or address R. T. G. Matti Biagi, Louisville, Ky.

What happened to Jones?

CONSUMPTION

WORKS WITH STEALTH

First, a slight Throat or Lung Trouble, a little neglect or indifference on the part of the patient—then Consumption! This has been the tale told of many a wasted life. The one truly scientific prescription against this dread disease is

DR. OTTO'S SPRUCE GUM BALSM
FROM THE RED SPRUCE TREE

If you have a cough you do not need an expectorant, but a soothing specific to throw off the phlegm without coughing or straining. Dr. Otto's Spruce Gum Balsam relieves inflammation, heals the lungs and strengthens the respiratory organs, thus imparting a vigorous energy to the whole system. Invaluable for Coughs, Colds, Whooping Cough, Croup, Bronchitis, Catarrh, etc., etc. from St. Louis or Memphis. Mrs. Albert J. Schulz, 200 Jefferson Ave., Evansville, Ind., informs us: "A year ago I was taken with a grippe and a severe attack of consumption. Dr. Otto's Spruce Gum Balsam and poultice to the lungs relieved me. The doctors gave me relief, but not cure. After taking the first dose I felt a change. I took several bottles and was entirely cured."

Mrs. Wm. Lawton, of Louisville, Ky., writes: "I have cured my children of the croup by using Dr. Otto's Spruce Gum Balsam. No other medicine does this. I have had the worst cases of croup and the children have been cured."

For Sale by St. Bernard Drug Store Earlinton, and Geo. King St. Charles.

THURSDAY, MARCH 16, 1905.

OUR GREAT INDUSTRY.

Hopkins county to the fore again and always. It is in the matter of industry of a particular kind that Hopkins county excels. It is the coal industry, the center of which is at Earlinton, and which makes the entire people beneficiaries of the producing powers of the great collieries of Hopkins county.

Today, as is the annual custom, THE BEE presents its readers with the first figures concerning the coal industry of the county for the year 1904, and the figures are heavy with proof of the importance to the county and the State of these splendid producers and distributors of wealth.

The wages paid to labor are good and constant, giving employment to some two thousand men and youths and direct support to about one-fourth of the county's population.

In the face of a loss in the county's output as compared with 1903, and the considerable gain in output of the Southeastern district, Hopkins county maintains its place as the producer of one-fourth of the entire coal output of Kentucky.

Those who are actually in contact with the business, and business men generally, appreciate these facts and know the value of the million of dollars in wages paid to labor annually and the large additional local expenditures for materials and supplies that must be had for a mining operation and which are always bought at home if produced here.

There are others who are not so well informed. They have not been to our mining towns and do not know the prosperity that rules generally in these towns. To these we extend a cordial invitation to visit Earlinton and see for themselves and be convinced that the coal mines of Hopkins county are worth far more to the people of the county than any other one industry or business known to our people.

The Standard of procedure with Kentucky grand juries now-a-days is to indict the big oil trust some more. If they all stick Rockefellow will enrich more counties with fines paid than Carnegie has ever enlightened with free libraries.

COL. E. G. SEBRE is an applicant for appointment as Collector of Internal Revenue for this district and is said to be out vigorously for the place. Col. Lige is one of the most widely known and popular Republicans in the State and has behind him a record of many years of unselfish service to his party. If anybody deserves the recognition of official appointment it is Col. Sebre.

The progressive pushers of the wild west believe that advertising pays. A special Pullman train started Tuesday from Tulsa, Indian Territory, with 100 citizens and a daily newspaper plant on board to make a tour of fifteen days through six States, for the purpose of advertising the resources and the people of Indian Territory. The daily newspaper plant is to be in actual operation on board the train. An exhibition car shows the products of the territory.

How Are Your Kidneys?

free. Add. Sterling Remedy Co., Cincinnati, Ohio.

LOCOMOTIVE BLASTS

Hosler John Mullen, of Howell, stepped on a rusty nail last Friday in getting off an engine, inflicting a painful wound.

Brakeman J. F. Schwambach fell off a car at Mt. Vernon, Ill., Saturday in train 67. He was not disabled from the fall, however, and worked through to Howell.

Mike Devney, machinist at Howell, has resigned.

Fireman H. C. Tornatta, of the St. Louis Division, has resigned.

The coal train between Mascoutah and E. St. Louis has been taken off.

J. L. Darnell, who has been watching the coal train engine all winter, at Mascoutah, Ill., has been started out as a fireman.

Fireman J. W. Porter is laid up with a broken knee cap.

Switchman Rosemeyer was slightly injured between two cars while switching in Howell yards Friday.

A western railroad recently discharged seven of its best engineers on short notice. Special agents had seen them enter saloons. Each of the engineers admitted that they had visited saloons, claiming, however, that they did not take anything to drink, but simply took something to smoke.

That made no difference with the railroad company. If they had only entered for the purpose of looking at the paintings or statuary, or listening a moment to the grinding of a graphophone or music box, the result would have been the same. What more than the railroads could do to advance the cause of temperance?

Thomas Walsh left last week for Redding, California, where he will spend sometime on business.

In attempting to climb to the top of the coal gate on the tank of engine 270 pulling train 93 Saturday, fireman J. W. Rogers fell off into the deck of the engine, striking his back on the fire door latch and injuring himself.

A. J. Bruning, foreman painter, is making an inspection trip over these divisions. He was at Gothic recently, from which place he went to St. Louis.

Train 72 left Madisonville the other evening with two passenger who evidently thought they were seated in a pigpen—to judge from the way they covered the floor around their feet with tobacco juice. It is a well-known fact that such disregard for public decency has a tendency to spread disease. Some men will raise the window to expectorate and some will even swallow the juice rather than cover the floor, but these two gentlemen (?) cared to do neither. But let them beware. Every dog has his day.

Since the Kentucky State Board of Health has adopted regulations which make spitting on the floor of any railway car or station a violation of law, punishable by fine and imprisonment, to be put into effect at an early date, such objectionable scenes will be eliminated.

The people of Kentucky have about as much to rejoice over as the people of Indiana.

Edgard Van Etten, vice president of the New York Central R. R., has an article in last week's Leslie's Weekly on "The Rate Question."

Jesse Wilson, known throughout the country as the railroad evangelist, is in Spencer, Indiana. No other person is doing as much effective work among railroad men.

Mr. O'Bryan, of the Hustler, came to Nebo intending to only make a short call, but was so well pleased that he let the train leave him, and said the next morning he hoped the train would bring him again.

What the attraction was we cannot say, unless it was the splendid fare at the Rutherford house.

Mr. Hodge began shipping tobacco last week.

Jimmie K. Kirkwood died Thursday, March 8th. He had been sick a long time and his death was expected.

Miss Mary Peyton, of Coitown, is bad colds are very common here.

An effort is being made to establish another Rural Route from Nebo through a part of Webster county, via Webster and Cox's store.

J. A. Justice sold seventeen work mules to different parties one day last week.

POLITICAL POINTS.

As evidence of his good will toward the South, President Roosevelt has offered, through Georgia Congressmen, to give a good federal position to the widow of Gen. John B. Gordon. She is being considered for postmaster at Atlanta.

John W. Langley, of Kentucky, disbursing clerk of the census office, is understood to be in line for a more lucrative position under the new administration. He is said to be the first man to propose Theodore Roosevelt for Vice President, which he did at the Philadelphia convention of 1896. In his capacity as a delegate he urged from the start the political expediency of placing the Rough Rider on the ticket. While Mr. Roosevelt did not care for the Vice Presidential nomination then, he formed a friendship for Mr. Langley that has not been broken.

NEBO NOTES.

Bro. King came Saturday to fill his regular appointment, but was called to Earlinton on account of the serious illness of Mrs. Kavanah. He returned and preached at night.

D. C. Morrow and wife and Miss Robbie Hill went to Madisonville Monday.

The recent rain brought tobacco in order and farmers are busy stripping and delivering.

The hens, after being on a strike all winter, have resumed business and now nearly everyone that comes to town bring in various amounts from five to twenty dozen.

A wedding, after being postponed, at last occurred at the Rutherford house between Mr. William Lynch and Mrs. Florence Hibbs. The ceremony was performed by Rev. J. D. Downs, who is a few impressive words pronounced them man and wife.

Judge W. Dorr, of Madisonville, paid our town a visit one day last week, returning the same day.

During the late rains a ditch that was used to drain "Parish's" coal mine got stopped up, filling the mine with water. It will be several weeks before they can resume work.

Miss Tot Pike returned home Friday, after a visit of several days at Stanhope.

Mrs. Mattie Jackson went to Coitown last week to nurse her aunt, Miss Mary Peyton.

Mr. Bill Roberts, who lives three miles west of here, found one of his best horses Sunday with the skin all torn off his breast and hanging loose, which he had to cut off. He had no idea how it was done as there was no sign of the stable or lot. The horse was a valuable one and we hope that he will soon be well.

Burnett McCoy, of the Stanhope country, was here Monday delivering tobacco.

A rumor reached Nebo last week that the roads were very muddy.

Mr. O'Bryan, of the Hustler, came to Nebo intending to only make a short call, but was so well pleased that he let the train leave him, and said the next morning he hoped the train would bring him again.

WHITELAW REID HAS QUIT

A Veteran Newspaper Man Leaves Editorial Chair.

New York, March 13.—Whitelaw Reid, editor of the New York Tribune since 1872, announced his retirement from that position, in consequence of his acceptance of an appointment to the court of St. James.

WHITE LAW REID
Mr. Reid's retirement has made necessary a reorganization of the Tribune. His Lyman, long a member of the editorial staff, succeeds Mr. Reid. Donald Nicholson, who has served the paper 23 years, retired at his own request from the managing editorship, and is succeeded by James Martin, who has been on the editorial staff since 1876.

FASSE CHADWICK GUILTY

Her Counsel Declares the Verdict Was Not In Accord With the Indictment.

Cleveland, O., March 12.—Mrs. Carrie L. Chadwick was found guilty of conspiracy to violate the United States banking laws by conspiring to procure the certification of checks on a national bank when they were funded in the bank to her credit. She was found guilty on every count of the indictment upon which the jury was at liberty to hear her, seven in all. The original indictment contained 16 counts. Two of these were quashed during the trial by Judge Taylor, and of the remaining 14, one-half charged her with securing the certification of checks without having the proper endorsement on both sides of the bill. Judge Taylor, in his charge directed the jury to disregard these counts, and consider only the remaining seven, which related to the certification with no funds on deposit. On all of these the jury found her guilty.

Under the law she can be fined on each count not more than \$10,000 nor imprisonment more than two years on each count.

In spite of the verdict, J. P. Dowdy, Mrs. Chadwick's attorney, said that it was not in accord with the terms of the indictments, and that the case would be taken to the court of appeals as soon as possible.

First Woman in Printers' Home, Colorado Springs, Col., March 14.—The application of Mrs. Nellie V. Wilson, who has been admitted to the national union printers' home has been approved. Mrs. Wilson, a member of the Washington (D. C.) local, is the first woman to be admitted to the home, although no discrimination is made against sex.

The Jury Convicts a Murderer, Cripple Creek, Colo., March 11.—The jury, in the case of James M. Warwick, the deputy sheriff who shot and killed Christopher Miller and Isaac Lebo at the polls in Goldfield on election day, November 8 last, was discharged, having failed to agree after deliberating over seventy hours.

Sudden Death, Kingston, Jamaica, March 14.—Charles A. Forbes, of Petersham, Mass., died suddenly on board the tourist liner Halifax, off this port. The ship returned to port Sunday, and the body was handed to be embalmed and sent home for burial.

Barred Rocks and White Leghorn. Barred or White Plymouth Rock and White Leghorn eggs, can procure a most pleasant afternoon at flush after which a dainty salad course was served.

Flush. At Oakmoor Friday afternoon Mrs. Paul M. Moore entertained the ladies club. Twenty guests spent a most pleasant afternoon at flush after which a dainty salad course was served.

A SUGGESTION TO RUSSIAN CZAR

Make a Dramatic Appeal to the Nobles and the Zemstvos.

MAKE THEM SOLEMN PROMISES

Make a Stirring Appeal, Through Them, to the People to Loyally Rally and Co-operate in Pushing War to Successful End.

The council of war commanded by Emperor Nicholas is reported to have declared, yesterday, that the war must be carried forward. The all-important question of financial resources, however, is still not settled, so no answer, the situation being complicated by the reported decision of French capitalists not to negotiate the loan recently offered by St. Petersburg. The probability is, however, that when Gen. Kropotkin has completed the task of reorganizing what is left of his army he will be permitted to return to Russia, and that the command in Moscow will be given to Gen. Skoboleff, whose name was synonymous with success under Gen. Demidov, who has been regarded the foremost of Russia's scientific soldiers.

St. Petersburg, March 15, 12:30 p.m.—A bold way out of the perplexity of the present situation has been suggested, namely, that Emperor Nicholas travel to state to the ancient capital of Moscow, summon the nobles and leading men of the zemstvos around him in the secret presence of the Kremlin, frankly lay the situation before them, publicly pledge his word for the execution of the projected reforms, and make a stirring appeal to loyalty rally to the support of the Russian arms and co-operate in prosecuting the war to a successful termination.

The ASSASSIN FIRED AT WILSON THROUGH A WINDOW WHILE HE WAS SITTING IN HIS HOME READING A NEWSPAPER. The killing of Wilson, a prominent citizen of Ozark county, village marshal and town officers are unable to throw any light on the murder of Joda Wilson at Romance, eight miles south of here.

Two shots were fired, supposedly from a 44-caliber revolver. One bullet struck Wilson in the head and the other passed through his left breast. He died almost instantly.

Wilson was one of the best-known residents of Ozark county, and a near relative of the wife of State Senator Curry, who was called here from the legislature at Jefferson City, by the tragedy.

The fact that two shots were fired removes beyond doubt the possibility that Wilson's death resulted from a random accident shot.

Searching parties were immediately organized to look for the murderer, but without results. So far as known, Wilson had no enemies. He was 43 years old, and during most of his life was a pensioner of a farmer.

The village of Romance has a population of about 100. The shooting has caused great excitement among the village folk.

PHOSPHOROUS

CAUSES A FIRE

Earlington Iron Works Narrowly Escapes Destruction.

FORTUNATE DISCOVERY AT SUPPER TIME.

A fire occurred from a very unusual cause yesterday evening shortly after quitting time at the Earlington Iron Works foundry. It was caused by a truant who had phosphorous which had been lost for several days and had defiled the efforts of Mike Hanna, to locate the dangerous chemical about the place. Young John Hanna was the hero who discovered the incendiary fire a few minutes after all hands had left the works. He emptied the contents of a bucket of wash water into the corner where the "little blue blazes were sputtering." This checked the fire but spread the phosphorous all about on the adjacent wooden sides of the building. He then gave the alarm and Mike and others hurried in.

The fumes filled the place like fog and made work and breathing difficult but they succeeded in stopping the fire without calling on the fire department. Mike had kept the can, which contained a half pound of stick phosphorous, submerged in a bucket of water, which he had hanging in the foundry. Some who did not know its contents thought it was water because some rubbish had accumulated. M. Hanna, Sr., is away on a business trip. There is no insurance on the plant and the loss would have fallen heavily as a good enterprise.

Mike will hang his can in a thorn tree outside hereafter. The chemical is used in smelting brass.

MONTH'S MIND MASS.

Requiem Service Celebrated Yesterday in Memory of Father Coenen.

The Month's Mind Mass, or 30th day memorial service held in accordance with the liturgy of the Catholic church was celebrated Wednesday morning at the Immaculate Conception church for the repose of the soul of the saintly Father Coenen.

Services began at 9 o'clock and the building was well filled with the faithful members who mourn the loss of him who for 30 years had been to them a devoted priest and loving father.

The solemn mass was said by Rev. Father Hayes of Louisville, assisted by Rev. Robert Schmitz, of Morganfield, who acted as deacon, and Rev. Louis Herzer, of Rome, as sub-deacon. Rev. Father Lynch was master of ceremonies.

The music consisted of the solemn Gregorian chant, intoned alternately by the priests present and the members of the congregation and was in keeping with the ecclesiastical requirements for plain song. This feature of the service was in harmonious with the music selected so solemnly and successfully by Father Coenen during his life. It was indeed a fitting tribute to him who had always manifested a keen appreciation of the church's own music.

After the solemn mass had been sung the absolution was given by the officiating clergy.

Rev. Father Lynch delivered the eulogy and paid a beautiful tribute to the virtues of the deceased pastor. He spoke at length of the humble congregation and enumerated the most insurmountable difficulties which had to be overcome by the incessant labors and care of Father Coenen and the hearty co-operation of the faithful flock.

Father Lynch in speaking of the personality of Father Coenen showed how faithfully the deceased priest had conformed with the requirements of the priesthood office. "Though endowed with extra ordinary gifts of heart and mind, he ever strove to imitate the divine model of the priesthood, Jesus Christ, and made humility the predominating virtue of his life."

Besides the acting pastor, Father Welsh, the following priests were present:

Rays. Thomas Hayes, of Bowling Green; Edward Lynch, of Henderson; Kelleene, of Uniontown, B. A. Cunningham, of Louisville; Robert Dugay, of Frankfort; Joseph Ondensahl, of Hinsaw; Louis Horbach, of Rome; John Kalaber, of St. Vincent, and B. J. Boland, of Somers.

Mr. Taylor Stokes and Miss Ida Smith were married at the residence of Capt. W. L. Lester Sunday evening at 8 o'clock. Miss Smith is the daughter of Mr. Henry Smith. This makes the third one of this family inside of a year that Mr. Lester has married. Their friends wish them a long and happy life.

COL. E. G. SEBREE
Has Applied for Appointment as Revenue Collector at Owensboro.

From one of his home papers, the Henderson Gleaner, comes the following quotation which speaks most highly of Col. E. G. Sebree, one of the most popular and universally known men in Kentucky:

"Our fellow-townsman, the Hon. E. G. Sebree, has filed an application with the authorities at Washington to be appointed collector for this district.

"It gives the Gleaner great pleasure to bear testimony to the personal worth and attractive social qualities of Col. E. G. Sebree. As a practitioner he occupies a high position among his professional brothers. For years past he has been attorney for the St. Bernard Coal Co. at Earlington. The multifarious and exacting demands of that corporation have all but monopolized the professional labor of Col. Sebree, leaving him but scant time to devote to the general practice of his profession.

Col. Sebree was born April 30, 1857, in his father's farm near Trenton, in Todd county. He attended the village schools and in 1874 entered Bethany college, West Virginia, from which he graduated in the class of 1877 as valedictorian. He worked in the Henderson circuit clerk's office under David Banks and at the same time studied law under S. B. Vance until the fall of '78. He then entered the law office of C. C. Sebree and graduated in on term in the year 1879. In the same year he began the practice of law in Hopkinsville, and in the following year formed a partnership with Hon. Jno. Feland, Jr.

"In 1888 he was elected county attorney of Christian county and served one term. He then served in the state legislature in 1887 and '89 being nominated and elected without opposition. At the close of the session he came to Henderson and opened a law office. Four years later he was a member of the Second congressional district to the national republicans in opposition to the late last was nominee of his party for congressman from the Second Kentucky district, and although it is normally a democratic district and the majority given the democratic nominees is always large, Col. Sebree was beaten by only 2,800 votes. It was in this campaign that Col. Sebree took a position against free silver, the first time it was made an issue in this state. Last year he was again delegate to the national convention of his party."

Yo-ki-ning.

Miss Francis Young and W. H. Kline, both of this city, were united in marriage at the King Solomon Lodge of this place.

Mrs. E. Patterson, of Monroe Gap, is the spouse of her parents, Rev. and Mrs. H. Amos.

Cordia Ross, of Madisonville, is visiting Mrs. C. Alexander.

Bro. E. Bayliss, pastor of the C. M. Church, returned to his charge last Saturday from his home in Tenn., where he had spent a week with his family. His being sick detained him.

Charles Campbell is improving slowly.

Bro. H. A. Keeton preached his first sermon here Sunday as pastor of the Baptist church. He left Monday on the early train for Bardstown, Ky., for his family to return in the near future to take up his pastoral work.

Old Citizen Dies at Madisonville.

Capt. Jno. Christy, one of the pioneer citizens of Madisonville, died Wednesday. He had been in bad health for a long time and was quite an aged man. He was a brother of Mrs. Kate Woolfolk and Miss Joe Gibson. Capt. Christy was one of the best known men in his native town.

He was a Captain in the army of the Southern Confederacy and went through the four years of this war. He was buried today by the United Confederate Union Camp 522 at the Old Fellow's cemetery.

Smith-Stokes.

Mr. Taylor Stokes and Miss Ida Smith were married at the residence of Capt. W. L. Lester Sunday evening at 8 o'clock. Miss Smith is the daughter of Mr. Henry Smith. This makes the third one of this family inside of a year that Mr. Lester has married. Their friends wish them a long and happy life.

Chickens, frying size, \$1.50 to \$3.00

per dozen.

Hens, \$2.50 to \$3.00 per dozen.

Turkey, 12½c.

Dairy Dots.

The majority of farmers should depend upon raising their own dairy stock. This should be done more cheaply than cows could be bought, especially at the present time. And the advantage is that heifers can be raised in a proper manner and adapted to the farm, which will not come from frequent changes in ownership.

During a recent blizzard in New Jersey a lawyer paid \$200 for two quarts of milk and an equal amount of cream for his baby.

The milk industry is greater than the steel. The steel industry is reported to represent \$570,000,000, while that of milk exceeds \$600,000. The milk stations along the Mohawk Valley, in New York, recently cut the price of milk 12 cents per hundred pounds. It is reported that farms are declining in value there because of the exactions of the produce companies who pay low rates for farm produce and control supplies at high prices.

Prof. L. H. Bailey, of Cornell University says: "Dairying is a kind of manufacturing enterprise. The barn is the factory. Cows are the machines. Hay and silage and concentrated feeds are the raw materials. The factory should run all the year." The barns must be adapted to the health and comfort of the animals, not merely a place in which to keep them or store them for a half a year.

In summer the churning should be done at as low temperature as will permit the cream to form butter at the least cost of time and labor. The temperature ranges from 55 to 65 degrees, according to conditions. When the cream is most oily, as in summer, the lower temperature is better, while in winter the higher temperature may be an advantage. There is no exact temperature for churning, as cream varies and only observation will enable one to arrive at a full understanding of the requirements. Use a thermometer and in a few days much will have been accomplished in learning of the proper temperature.

Have measures and scales, learn how much difference there is in the yield of your cows, and then figure out the loss in keeping a poor cow. Do not take some other man's word for it, but do it yourself; then you will be convinced.

If the cut worms are likely to be troublesome poison them before planting corn. It is no use doing so after the crop is in, as they will prefer the corn to the

poison. Mix Paris green with bran moistened so it will stick together in balls, or dip bunches of green clover in Paris green mixed in water and drop these over the field.

Helpful Hints.

Rainwater and soap will remove machine grease from washable fabric.

Boiling starch is much improved by the addition of sperm or salt, or both, or a little gum arabic dissolved.

Use soapy water for making starch. It will give a prettier gloss and keep the iron from sticking.

If by chance you burn the top of your cake, take your large grater and gently grate off the burned part. Brush crumbs off before icing cake.

Salt will curdle new milk. In preparing porridge, gruel, etc., salt should not be added until the dish is prepared.

Paint stains that are old and dry may be removed from cotton or woollen goods with chloroform. First cover the spot with olive oil or butter.

When you black your stoves, use strong, clear coffee to moisten the blacking and the resulting paint will please you.

If a foreign substance, such as a fish bone, should be lodged in the throat, speedy relief can be obtained by swallowing a raw egg, as it will usually detach such obstructions.

If the fat in the frying pan is hot before you are ready for it, put in a crust of bread; it will not burn as long as it has something to do.

Red pepper pods or a few pieces of charcoal thrown into the pot in which onions or cabbage is boiling will prevent the unpleasant odor.

When your vinegar cruet or perfume bottle becomes cloudy and stained, pour into them a little freshly made tea (made for the table), a little hot soap and a tiny piece of soap. Shake well and the stains will disappear.

Poultry Pickings.

A corner in eggs is a cheerful announcement. After the eggs have been "held up," in the corner for a week or two, will they be marketed as "strictly fresh?"

Moth balls placed in the nests ought to fix any growing vermin that might decide to start housekeeping therein. A penny's worth in each nest ought to be sufficient.

The breeding birds should have a little more elbow grease than the remainder of the flock. Each bird should have not less than ten square feet of house room. Bone is one of the best substances that can be fed to the hens. Ground or broken bone is highly relished. It not only contains lime for shells, but also nitrogen and the phosphates. It should be kept before the hens in boxes all the time.

The man who places a porous nest egg in the nest when the temperature is down to zero causes the hen that goes on the nest not only the loss of a large amount of animal heat to warm the cold substance, but also inflicts upon her a task which is severe and cruel.

A frosted comb is a source of great pain to a bird. It should be treated as tenderly as you would your own frozen ears. If taken in time, apply snow or ice cold water, wiping dry after the parts thaw, then apply glycerine once a day. Any substance that irritates the parts, such as spirits of turpentine, alcohol, etc., simply causes excruciating pain. Feed the bird on nutritious food, and keep them in dry

THE BEE, EARLINGTON, KY.

LIVER TROUBLES

"I had Thedford's Black-Draught for my mother's liver and she is now well again. I am still taking it. It is all the medicine I need."

If you do not feel up to your doctor's demands, secure a package of Thedford's Black-Draught and take a dose tonight. This great family remedy for all diseases of the bowels, stirrs up the torpid liver and causes a healthy secretion of bile.

Thedford's Black-Draught will cleanse the bowels of impurities and strengthen the kidney, cure liver, colic, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys are a common cause which claims as many victims as consumption. A 25-cent package of Thedford's Black-Draught should always be kept in the house.

"I used Thedford's Black-Draught for my children and found nothing to exceed it." — WILLIAM COFFMAN, Madisonville, Ill.

THEDFORD'S BLACK-DRAUGHT

Sold by St. Bernard Drug Store.

quarters where cold drafts will not reach them.

What is said to be the largest egg farm in the world is owned and managed by C. E. L. Hayward at Hancock, N. H. It has at this time over 400 hens kept in 600 small houses, fourteen in each. The hens are never allowed outside their little eight-foot square coops, and are never fed green feed, contrary to the teaching of all other poultry feeders. Each hen gets about a quarter of a pound per day of beef scraps, glucon, hominy feed, wheat, etc., with a little salt, ground shells, grit and charcoal, and plenty of clean water.

By a series of experiments it has been discovered that the feeding of green cut bone increases production of eggs. Different parts of ordinary market bones upon analysis were found to contain in abundance the ingredients which go to make up the growing chick, and in wonderfully close proportions the different parts of the complete egg. The lean meat and gristle form the white of the egg and about 16 per cent. of the yolk. The marrow and other fat on the bones supply the remainder of the yolk, while the lime phosphates in the bone yield all the necessary lime salts for the shell and the requisite phosphates for interior of the egg.

USE

St. Bernard Coal.

Mined in Hopkins County, Kentucky, the largest coal producing county in the State. This Company operates

EIGHT LARGE MINES

and produces about one-sixth of all the coal mined in all Kentucky.

Only Western Kentucky Coal to Receive World's Fair Medal

at Louisville Purchase Exposition in 1894, where this company made one of the principal exhibits in the Kentucky Mineral Section.

Best Coal for Steam and Domestic Purposes.

St. Bernard No. 9 Coal has come to be recognized, through years of satisfactory use, as the standard grade both for steam and domestic purposes, in the larger territory reached by our products. Another point in favor of our coal is the fact that we have established an unimpeachable record for

Prompt Service the Year Around.

Our mines are operated more days in the year than any mines in Kentucky and with an enormous output at command we are able to give the promptest and most satisfactory service.

St. Bernard Coke

is also a superior fuel and is extensively used in base burners and heating furnaces for residences or any other building that needs to be heated, and takes the place perfectly of high priced anthracite coal. This coke is extensively used in manufacturers as well and is furnished in various grades.

If your dealer does not handle our coal and coke write to us.
